Work History

Software Engineer, 06/2014 to 04/2016
CarDekho – Jaipur
Cardekho.com provides its visitors with explained car details, car reviews and e- commerce services to help them reach out to the automobile dealers. During the association with CarDekho, below are the projects I have worked upon :

Car Ranking Algorithm : An algorithm which dynamically calculates absolute as well as relative scores of the cars

that are included in the comparison. After calculating the scores, cars are ranked as per different criteria.

Trustmark Certification : This feature allowed used car owners or buyers to get a quality check done for the cars they were selling/buying depending upon 100+ distinct features that decide a car's condition.

CarDekho Portal : Along with several projects, key responsibility at CarDekho involved development and maintenance of the automobile portal.

Software Engineer, 04/2016 to Current
Pratham Software – Jaipur
Dataflow Group, Noida
Dataflow Group is a leading verification and authentication service providers which are a client of Pratham Software. Key responsibilities include :

- Manage Savvion BPM software which includes designing custom workflows, development of backend for the workflows.
- Along with development, deployment and post-delivery maintenance is also an important part of work profile.

Education

Higher Secondary, Central Board of Secondary Education (CBSE): 2010
Maheshwari Public School - Jaipur

Bachelor of Technology (B.Tech): Computer Science, 2014
Rajasthan Technical University - Kota
